

Grant P5119 Music in the Garden Final Report

The Music in the Garden series was successfully completed in August of 2024. Twenty-four different bands performed on twelve Thursday nights in the beautiful Georgeson Botanical Garden on the University of Alaska Fairbanks campus. An average of 800 people across the demographic and socio-economic spectrum attended the concerts. In addition to our financial support, College Rotarians collected funds for the Garden by walking through the crowds with watering cans to collect donations. |
