About our school

The school was started in 2005 to cater to the need for affordable quality education in a rural setting. Over the past 17 years, our school has gained a reputation for implementing unique learning and teaching strategies to impart the motto that we have set. We uphold a good and healthy environment among the teaching and non-teaching personnel and the student body to bring our motto into action. For the continual development of our school, we seek advice and training from several educationalists, scientists, and other resource persons periodically.
