Brief description of Project: This project is located in Jayanca rural town, Jayanca District, Lambayeque Province, Lambayeque Department, Peru. Regarding the drinking water service, the existing system does not manage to supply all sectors of the San Carranco town, for what I know seeks to supply the population directly involved and carry out adequate treatment of drinking water human with the execution of this project. 1080 people from San Carranco town are directly benefited.

For this end, the following specific objectives will be reflected in the project: Implement and improve the drinking water service for human consumption; Implement and improve the excreta disposal service; Improve hygiene practices and habits; Train the population in health education.
