

TENTH PROJECT FAIR EAST – ANTIOQUIA 2025

ROTARY CLUB: EL CERREJON

ROTARY DISTRICT: 4271

CITY: ALBANIA, LA GUAJIRA

NAME OF THE PROJECT: ACHIEVE SO THAT 50% OF THE STUDENTS OF THE SAN RAFAEL SCHOOL OF ALBANIA ACHIEVE 270 POINTS IN THE KNOWLEDGE TEST.

AREAS OF INTEREST: BASIC EDUCATION & LITERACY

 WATER & SANITATION	 PEACE, PREVENTION & RESOLUTION OF CONFLICTS
 BASIC EDUCATION & LITERACY	 PREVENTION & TREATMENT OF DISEASES
 SUPPORT FOR THE ENVIRONMENT	 MOTHER & CHILD HEALTH
 COMMUNITY ECONOMIC DEVELOPMENT	

OBJECTIVES OF THE PROJECT:

1. General objective (10 lines maximum)

Increase the percentage of students from Colegio San Rafael who access university studies from an estimated 30% to 50% so that they reach a score of 270 on the knowledge tests (ICFES), which corresponds to the minimum score required to enter Uni. guajira.

Our project seeks to remedy the deficiencies in the training of students due to the lack of access to information technologies and a structured and consistent plan for preparing for Saber tests, so that they are more competitive in the training market and therefore in the labor market, promoting the reduction of the cycles of poverty and exclusion to which they have been exposed for decades. We seek to enable these young people to develop all their skills and to have equal access to higher education; we also seek to create synergies with different institutions in the private and government sectors to break these cycles of marginalization.

PROJECT DESCRIPTION: (15 lines maximum)

Provide computer equipment, software, desks, chairs, air conditioning, interactive whiteboards, giant screens and teaching materials. Also adapt 2 interactive classrooms so

that the tablets and computers that the school currently has, in addition to the equipment provided in the project, have a permanent and controlled place of use so that the students of the San Rafael de Albania school can apply new information technologies in education more efficiently.

Implement a solid reinforcement program for the Knowledge Tests, integrating teachers, directors and external experts. We will optimize the use of the technological tools of the project to enhance this program.

It is planned to carry out training for the teachers in charge of the facilities and equipment, to strengthen their skills and knowledge and so that they can be competent both in the use of the equipment and the required programs.

PLEASE DESCRIBE WHAT NEEDS YOU IDENTIFIED? HOW WILL THE PROJECT MEET THESE NEEDS? WHO WILL BENEFICIARY OF THIS PROJECT? MENTION AN ESTIMATED NUMBER OF BENEFICIARIES. (15 lines maximum)

NEEDS: Lack of access to office tools and facilities with access to information technologies. The students of the Institution do not have office automation educational resources in quantity and quality that help them to face their activities and academic obligations. Likewise, there is no structured program for preparing for Knowledge tests. The percentage of students from Colegio San Rafael who access Higher Education is less than 30%. Currently, the percentage of admission to the University is very low, in fact, many have to repeat the state tests to be able to obtain a place at the university and this is mainly due to the shortcomings in access to training through information technologies.

The minimum score for admission to the University of La Guajira is 270 and the weighted average of the students of Colegio San Rafael is 216.

ATTENTION TO NEEDS:

It is necessary to develop skills from the beginning of their training through the use of computer equipment and Education and Learning software from preschool and later in primary and secondary school. As a complement, a structured reinforcement program for Knowledge tests is required where efficient use of the equipment and office tools provided can be made.

NUMBER OF BENEFICIARIES: 1200 students

SUSTAINABILITY: (explain how the project will continue to operate once the financial support you receive for this project ends)

The school's management, in conjunction with the teaching staff, and the municipal authorities represented by the Education Secretariat of the Municipality of Albania, will be responsible for the maintenance and updating of the computer equipment and software supplied by the project.

The reinforcement program for Saber tests, once structured, will be led by the school's management, teaching staff, Student Council and members of the Parents' Board of the Institution in such a way that it is sustainable and consistent over time.

IS THE COMMUNITY INVOLVED? DESCRIBE THE ROLE OF THE LOCAL COMMUNITY IN PROJECT IMPLEMENTATION AND CONTINUITY.

The community is represented by the teachers and administrators of Colegio San Rafael de Albania, as well as by the members of the parent-teacher association and the students in the Student Council, who are responsible for the proper use and maintenance of resources, as well as the effectiveness of the reinforcement program in Saber tests, thus guaranteeing the continuity of training for future generations.

CONCEPT	VALUE IN PESOS	VALUE IN DOLLARS
Cost of the Project	COP \$203.500.000	US\$50.000
Local Club	COP \$15.000.000	US\$ 3.685
International Club/s	COP \$111.172.050	US\$27.315
District 4271	COP \$ 4.070.000	US\$ 1.000
International District/s	COP \$ 40.700.000	US\$ 10.000
The Rotary Foundation	COP \$36.630.000	US\$ 8.000

Thanks to your support, our club will help the community by solving its most important needs. We appreciate the analysis of this project. For more information, contact:
