AdicTeen:

Virtual Addiction Prevention

AdicTeen helps teens fight substance abuse. Using virtual reality and online tools, it's the first virtual center for drug addiction education, prevention, and recovery.

Understanding the Problem

Adolescents are highly vulnerable to substance abuse, but stigma and outdated methods prevent effective intervention.

A new approach is needed.

Introducing AdicTeen

The first virtual center using VR and the metaverse to provide **education, prevention, and treatment** in a stigma-free environment.

AdicTeen's Impact and Innovation

Prevention

Interactive workshops and educational programs.

Intervention

Risk assessment and early intervention using virtual tools.

Treatment

Virtual therapy sessions and immersive recovery programs, including art and sports therapies.

Continuous Research

Evidence-based approaches to keep treatment methods relevant and effective.

Why **Virtual Reality** Works

Engaging and Immersive

Experiences outperform traditional lectures.

Safe Learning

Real-world learning without real risks.

Anonymous Participation

Removes stigma and increases participation.

Measurable Impact

Year 1 Goal: Reach 10,000 adolescents.

- **Subscription Model:** \$10,000 COP (~\$2.50 USD) per student for private schools.

Year 2: Free access for public schools.

- **Corporate Outreach:** Engaging businesses in workplace addiction awareness.

Sustainable Investment Model

Corporate Partnerships

Virtual addiction prevention for workplaces.

Institutional Subscriptions

Affordable private school plans.

Philanthropy & Grants

Support from NGOs and donors.

Why Invest in AdicTeen?

- **First** virtual addiction prevention center for adolescents.
- **Scalable** across regions and industries.
- Proven innovation with measurable outcomes.
- Investing in AdicTeen means **saving lives**.

Total Project Cost: \$80,000 USD

Your Support Matters

AdicTeen is an opportunity to redefine addiction care.

Your investment will empower adolescents, strengthen communities, and save lives.
