DIVISION OF CARDIOVASCULAR SURGERY

Dr. L. Mohanakrishnan, M.S., M.Ch.

Chief Cardiovascular Surgeon

To,

April 20.,2010

The San Diego Downtown Breakfast Rotary club,

P.O Box 80336

San Diego, CA-92138

Dear Sirs,

We are extremely proud to be associated with the local Sai City Rotary Club and G.Varadaraj Trust and your organization in the life saving heart surgery project for underprivileged children in our community. We as the organization providing the infrastructure for conducting the surgeries take complete responsibility to provide the best service and care to ensure a high percentage of success in the surgeries that we perform. We also undertake responsibility for the safety of our patients within our premises and all pre and post operative care.

We will work collectively with the rotary club to ensure that all formalities will be met in the selection and screening of the patients will be fully met and all the paperwork will be completed as per the requirements of the Gift of Life program and the Rotary guidelines. We assure you that there will be constant interaction between us and the Rotary club of Sai City for the success of the project.

We also agree to co-operate in all financial reviews of the activities connected with this project.

We have conducted screening camps in the government elementary schools in and around Coimbatore and identified the children who require surgeries for heart ailments. We now have a waiting list of 20 children who require surgeries. As of date we have successfully performed 350 surgeries under Gift of life program.

Thank you for your support.

Yours faithfully,

Dr. Mohanakrishnan. L
