

# CASA DE FE

Casa de Fe is a non-profit association in San Felipe, Baja California, Mexico. Its objective is to build orphanages in San Felipe.

The first goal is to build two long-term residential facilities with up to twelve children per home. A third building will be multi-use, partially used for elderly Mexicans who will serve as grandparents which will enrich their lives as well as the lives of the children.

These will be non-denominational Christian based homes set up in a family setting.

The homes will be staffed from the local Mexican community with a mom and dad for each house to give the children the cultural and family values needed to succeed in life.

Casa de Fe has the support of a local dentist and doctor and will solicit the assistance of university graduates to intern for psychological services.

The property has been purchased and construction of the first home has been started.

Donations are being solicited from U. S. organizations and private parties to pledge/sponsor children.

Building Time Line - Expected Completion Dates:

Floor ----- Completed

Walls and roof ----- Completed

Septic Tank ----- July 1, 2008

Plumbing & Electric ----- July, August, September 2008
